7 October 2025

Dear Accenture Hiring Team,

I am writing to apply for the Management Consulting Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Marketing at AU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Management Consulting Analyst role sits.

I am a marketing master's student at Aarhus BSS with a track record in consumer brand strategy and digital commerce. My internship at LEGO and student role at Salling Group have given me a holistic view of how consumer goods companies build, distribute, and grow brands. I am especially drawn to the intersection of consumer insight and digital tooling – from customer data platforms to GenAI-driven personalisation.

My most recent role as Marketing Strategy Intern at LEGO Group has shaped my interest in this work in concrete ways. Supported the Asia-Pacific consumer engagement strategy. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What attracts me to Accenture's consulting practice is the combination of strategic and implementation work for some of the largest organisations in the Nordics. The opportunity to apply hands-on problem solving in real client environments, while still developing depth in the areas I care most about, is rare — and exactly what I am looking for as I move from study into a full-time role.

I am open to working across Accenture Consulting's Industry practices (Financial Services, Resources, Life Sciences, Consumer Goods & Services, Health & Public Services) and Functional practices (Talent & Organization, Supply Chain & Operations). That said, my background and interests align particularly with the **Consumer Goods & Services** practice, and I would welcome the opportunity to be considered for it as a primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Management Consulting Analyst team.

Warm regards,

Frederik Aagaard
