EDUCATION

**MSc in Engineering –
Biotechnology**
DTU · 2024-2026
Current GPA: 10.5

**BSc in Engineering –
Biotechnology**
DTU · 2020-2023
GPA: 10.0

Exchange: Imperial College
London
Spring 2022

LANGUAGES

- Danish (native)
- English (fluent)
- French (basic)

TECHNICAL SKILLS

Python, R, MATLAB, GraphPad
Prism, JMP, Power BI, Excel

PROFESSIONAL SKILLS

- Experimental design
- Scientific communication
- Cross-functional collaboration
- Hypothesis-driven analysis

Astrid Mølbak

Graduate Applicant — MSc in Engineering – Biotechnology

PROFILE

Biotech engineering master's student at DTU with strong R&D; experience and a growing interest in commercial strategy in life sciences. I have worked at Novozymes on enzyme development and at Bain on a life-sciences engagement, and I want to bring my technical depth into Accenture's consulting practice — particularly where pharma and biotech clients face strategic and operational transformation.

WORK EXPERIENCE

Bain & Company · Copenhagen

Summer Associate (Practitioner Programme) · Full-time internship · Jun 2025 – Aug 2025

- Contributed to a commercial due diligence in the medtech space
- Built market sizing and competitive landscape analyses
- Co-presented findings to the engagement partner

Novozymes · Bagsværd

R&D; Student Assistant · Part-time · Sep 2023 – May 2025

- Performed enzyme screening and characterisation experiments
- Maintained electronic lab notebooks and contributed to two patent disclosures

Pharmacy Vesterbro · Copenhagen

Pharmacy Student Assistant · Part-time · Aug 2018 – Aug 2020

VOLUNTEER WORK

Volunteer, Danish Cancer Society · Sep 2022 – Present

Annual fundraising and event support.

MASTER'S THESIS

Continuous Manufacturing of Therapeutic Enzymes: A Process Economics Study
