Accenture Strategy & Consulting
Copenhagen, Denmark

Re: Application for Strategy Analyst graduate position

Dear Hiring Team,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Digital Innovation and Management at ITU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a iTU master's student combining technology strategy, digital business model design and organisational change. My internship at Trifork and student role at the Danish Business Authority have shown me how technology agendas translate into real business and policy outcomes. I see Accenture's Technology Strategy & Advisory as the place where my background fits most naturally.

My most recent role as Strategy Intern at Trifork has shaped my interest in this work in concrete ways. Supported a cloud transformation roadmap for a public-sector client. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **Technology Strategy & Advisory** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Yours sincerely,

Alma Petersen
