Dear Accenture Strategy & Consulting Hiring Team,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Economics at SDU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a SDU economics master's student with strong quantitative and analytical skills. My professional experiences at Copenhagen Economics and at the OECD have given me a robust foundation for industry analysis and strategic problem solving in regulated industries. Accenture Strategy represents an opportunity to apply this analytical rigour in a more action-oriented setting.

My most recent role as Junior Consultant Intern at Copenhagen Economics has shaped my interest in this work in concrete ways. Worked on a competition assessment for a Nordic energy client. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **Industry Strategy** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Kind regards,

Mille Frandsen
