WHAT I BRING

- Analytical and structured mindset.
- Hands-on, hypothesis-driven problem solving.
- Comfort with ambiguity and learning curves.
- Strong written and oral communication.
- Cross-functional teamwork.
- GPA of 9.6 from RUC.
- International outlook from exchange and work.

APPLYING TO

Accenture
Strategy Analyst
Copenhagen, Denmark

LETTER OF MOTIVATION

Elias Klint · Strategy Analyst graduate position

Dear Hiring Team at Accenture,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Computer Science (joint with Mathematics) at RUC in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a RUC computer science and mathematics master's student. My RUC project work has covered everything from natural language processing for legal documents to optimisation models for logistics. I am drawn to Accenture's Data & AI practice because I want to help clients turn AI from a topic of fascination into a structured part of their strategy.

My most recent role as Data Science Intern at KMD has shaped my interest in this work in concrete ways. Built models for fraud detection in public-sector benefit systems. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **Data & AI** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Warm regards,

Elias Klint
