WHAT I BRING

- Analytical and structured mindset.
- Hands-on, hypothesis-driven problem solving.
- Comfort with ambiguity and learning curves.
- Strong written and oral communication.
- Cross-functional teamwork.
- GPA of 9.7 from AU.
- International outlook from exchange and work.

APPLYING TO

Accenture
Strategy Analyst
Copenhagen, Denmark

LETTER OF MOTIVATION

Sarah Bonde · Strategy Analyst graduate position

Dear Hiring Team at Accenture,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Information Technology, Communication and Organisation (ITKO) at AU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a aarhus ITKO master's student combining digital transformation, business strategy and communication. My internships at Velux and at Aarhus Vand have shown me how strategic decisions cascade across digital, organisational and commercial dimensions. I am applying to Accenture Strategy because I want to take on industry-level strategic problems where digital plays a defining role.

My most recent role as Strategy Intern at Velux has shaped my interest in this work in concrete ways. Supported a digital strategy review for the residential business. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **Industry Strategy** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Warm regards,

Sarah Bonde
