

Esther Rohde

MSc in Engineering – Digital Innovation and Management Engineering

PROFILE

DTU master's student bridging design, technology and management engineering. My professional experience at LEO Innovation Lab and KMD has given me both startup and large-enterprise perspectives on how technology agendas are set and executed. I am drawn to Accenture's Technology Strategy & Advisory because of its mix of architecture-level rigour and human-centred thinking.

EXPERIENCE

Technology Strategy Intern

KMD, Ballerup · Full-time internship · Feb 2025 – Aug 2025

- Supported the development of a multi-cloud reference architecture
- Synthesised stakeholder input from three business units
- Co-authored an internal whitepaper used in client engagements

Product Designer Intern

LEO Innovation Lab, Copenhagen · Part-time · Sep 2023 – Jan 2025

- Designed and tested digital health interventions
- Worked across user research, prototyping and product strategy

Sales Associate

Imerco, Lyngby · Part-time · Aug 2017 – Aug 2020

VOLUNTEER

Member, DTU Design Society · Sep 2021 – Present

Co-organised design hackathons.

MASTER'S THESIS

Design as Strategy: An Inductive Study of How Designers Shape Cloud Architecture Choices
