PROFILE

I am a TUM Management & Technology graduate with a foundation that combines mechanical engineering basics with management. My internships at McKinsey Munich and Siemens have shown me how technology agendas are set and executed in large industrial firms. I am drawn to Accenture's Technology Strategy & Advisory practice in the Nordics — and I plan to relocate to Copenhagen this summer.

WORK EXPERIENCE

McKinsey & Company · Munich

Summer Business Analyst (Practitioner Programme) · Full-time internship · Jun 2025 – Sep 2025
