Accenture Strategy & Consulting

Tuborg Boulevard 12, 2900 Hellerup

Dear Hiring Team at Accenture,

I am writing to apply for the Management Consulting Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in International Management at IE Business School in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Management Consulting Analyst role sits.

I am an IE Business School MSc graduate combining a strong business administration foundation from Universidad Carlos III with a specialism in international management. My internships at Inditex and L'Oréal have given me hands-on exposure to consumer-goods strategy and digital commerce, and my exchange semester at Aarhus University introduced me to the Nordic business culture I am eager to return to. I plan to relocate to Copenhagen this summer.

My most recent role as Strategy Intern, Global Commerce at Inditex (Zara) has shaped my interest in this work in concrete ways. Supported the development of the global e-commerce strategy roadmap. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What attracts me to Accenture's consulting practice is the combination of strategic and implementation work for some of the largest organisations in the Nordics. The opportunity to apply hands-on problem solving in real client environments, while still developing depth in the areas I care most about, is rare — and exactly what I am looking for as I move from study into a full-time role.

I am open to working across Accenture Consulting's Industry practices (Financial Services, Resources, Life Sciences, Consumer Goods & Services, Health & Public Services) and Functional practices (Talent & Organization, Supply Chain & Operations). That said, my background and interests align particularly with the **Consumer Goods & Services** practice, and I would welcome the opportunity to be considered for it as a primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Management Consulting Analyst team.

Best regards,

Carlos Fernández García
