

Thomas Ryan

Dear Hiring Team,

I am excited to apply for the Management Consulting Analyst graduate position at Accenture Strategy & Consulting. With a background in finance, controlling, and financial leadership, I am motivated by the opportunity to bring my analytical experience into a consulting environment where business issues are approached holistically and where recommendations are translated into tangible results for clients.

Throughout my experience in finance and controlling roles, I have worked with budgeting, cash flow management, process improvement, reporting, and the implementation of new systems and controls. These responsibilities have required a combination of analytical rigor, ownership, and clear communication with stakeholders across the business. I have particularly enjoyed assignments where complex financial and operational issues needed to be structured, clarified, and improved through practical action.

What appeals to me about Accenture is the strong focus on technology-enabled transformation and the opportunity to contribute across both strategy and implementation projects. Given my profile, I would especially welcome consideration for Financial Services, where I believe my finance background and understanding of control, performance, and decision support would be especially relevant. I am also motivated by the opportunity to develop into a broader business advisor in a fast-paced and collaborative environment.

I would be proud to begin the next step of my career at Accenture and contribute with strong analytical skills, business understanding, and a genuine motivation to learn. Thank you for your time and consideration.

Yours sincerely,

Thomas Ryan
