Application for Management Consulting Analyst - Graduate Position

Dear Recruiting Team,

I am writing to apply for the Management Consulting Analyst - Graduate Position at Accenture Strategy & Consulting. With a bachelor's degree in Business Administration from the University of Southern California, a strong academic record, and hands-on experience in business operations, I am excited by the opportunity to contribute to projects at the intersection of business improvement, stakeholder coordination, and technology-driven transformation.

In my role as Business Operations Manager, I was responsible for coordinating daily operations, supporting management, reducing unnecessary costs, preparing documentation, and participating in weekly cross-functional meetings. This experience strengthened my ability to work in a structured and results-oriented way while balancing operational detail with a broader business perspective. I have enjoyed being close to execution, identifying inefficiencies, and helping improve the way teams and processes work together. I believe these are highly transferable strengths in a consulting environment where practical implementation and clear communication are essential.

What draws me to Accenture is the chance to work on meaningful business challenges in a collaborative, high-performance setting. I am particularly interested in being considered for Talent & Organization or Consumer Goods & Services. My background in operations, my interest in how organizations perform and change, and my motivation to help clients improve efficiency and execution make these areas especially compelling to me. At the same time, I would be eager to learn across functions and industries as part of the analyst role.

I would bring a strong work ethic, analytical curiosity, and a professional yet adaptable mindset. I am comfortable taking ownership, working with others, and learning quickly in new contexts. I am especially motivated by roles where I can combine structure, communication, and problem-solving to help deliver real value for clients.

Thank you for your consideration. I would be very pleased to discuss my application further.

Sincerely,
Donata Forys
