
MATHIAS WULFF

Strategy Analyst Graduate Candidate | Persona mix: Applied Technical Specialist / Tech Translator

Aalborg, Denmark | +45 29 15 67 44 | mathias.wulff@example.com | linkedin.com/in/mathiaswulff

Profile

Quantitatively strong candidate with hands-on experience in analytics, modelling, and decision support. Particularly interested in using advanced analysis to solve business problems and in making technical solutions understandable and actionable for stakeholders.

Education

MSc in Mathematical Modelling and Computation | Aalborg University | 2024-2026

Current GPA: 11.0/12 Focus on optimization, statistical analysis, forecasting, and simulation.

BSc in Engineering (Software and Data) | Aalborg University | 2021-2024

GPA: 10.3/12 Project-based learning with emphasis on systems development and applied analytics.

Professional Experience

Student Data Scientist | Norlys | Sep 2025 - Present

- Built models to support forecasting and customer analytics initiatives.
- Presented analytical results and limitations to commercial and product stakeholders.

Analytics Intern | Energinet | Jan 2025 - Jun 2025

- Worked with data cleaning, exploratory analysis, and modelling in an energy-related context.
- Contributed to scenario-based analysis for planning and decision support.

Research Assistant | AAU Department of Mathematical Sciences | Aug 2024 - Dec 2024

- Supported a project involving optimization methods and simulation experiments.

Selected Project Experience

- Developed a scenario model for demand forecasting with recommendations tailored to a non-technical decision-making audience.
- Led a group project on the business application of machine learning in utility operations, balancing model quality with implementation constraints.

Key Skills

Technical: Python, R, SQL, optimization, forecasting, machine learning, simulation

Translation & delivery: Data storytelling, slide preparation, workshop input, cross-functional collaboration

Other: Danish native, English fluent, analytical rigor, project-based teamwork

Languages & Activities

Languages: Danish (native), English (fluent).

Activities: Volunteer math tutor, student representative, organizer of faculty career event.
