Copenhagen NV, Denmark [linkedin.com/in/mahmoudelsayed](https://www.linkedin.com/in/mahmoudelsayed)

PROFILE

Graduate profile with a hybrid foundation in analytics, software, and business-facing problem solving. Most motivated by roles where data, AI, and strategic decision support come together, but comfortable working across both technical and commercial tasks.

EDUCATION

MSc in Business Intelligence - Aarhus University

2024-2026 | Current GPA: 8.7 / 12

BEng in Software Technology - KEA / partner programme

2019-2023 | GPA: 8.2 / 12

PROFESSIONAL EXPERIENCE

Student Data Analyst - Tryg

Sep 2024 - Present

- Built Power BI dashboards tracking process performance and product-level trends.
- Worked with SQL extracts, data cleaning, and ad hoc analyses used in management presentations.
- Helped frame small AI use cases for document classification and customer service routing.

Junior Developer (part-time) - Health-tech startup

2022 - 2024

- Contributed to backend feature testing, API documentation, and bug triage.
- Translated requirements from commercial colleagues into tickets and prototype ideas.

Teaching Assistant - KEA

2021 - 2022

- Supported first-year students in Python and database basics.

SKILLS

SQL, Python, Power BI, Data interpretation, Use-case development, GenAI applications, Systems understanding

SELECTED COURSES

Machine learning, Information systems, Advanced analytics, Database management, Business process understanding

LANGUAGES

Arabic (native), Danish (professional), English (fluent)

PERSONA / FIT NOTES (for testing dataset)

Primary mix: Tech Translator + Applied Technical Specialist + Data & AI. Dataset tag: borderline ambiguous. Preferred practice area: Data & AI, though I would also be excited by Technology Strategy & Advisory.
