

ANDREAS LINNET

STRATEGY ANALYST GRADUATE CANDIDATE

+45 61 55 48 29

andreas.linnet@protonmail.com

Kgs. Lyngby, Denmark

linkedin.com/in/andreaslinnet

PROFILE

Quantitative profile with a strong interest in using modelling, analytics, and structured reasoning to solve strategic business problems. Looking for a graduate role where technical depth can be translated into decision support, digital transformation, and innovation.

EDUCATION

MSc in Mathematical Modelling and Computation - Technical University of Denmark

2024-2026 | Current GPA: 10.4 / 12

BSc in Engineering, General Engineering - DTU

2020-2024 | GPA: 9.1 / 12

PROFESSIONAL EXPERIENCE

Student Analyst, AI & Advanced Analytics - Ørsted

Sep 2024 - Present

- Built forecasting models and tested scenario assumptions related to operational planning.
- Translated model output into simple management slides with risks, assumptions, and recommendations.
- Worked with cross-functional stakeholders from analytics, operations, and finance.

Research Assistant - DTU Compute

2023 - 2024

- Supported a small simulation project on optimisation under uncertainty.
- Reviewed literature and documented model assumptions in a way non-specialists could use.

Private Tutor - Self-employed

2020 - Present

- Tutored university students in calculus, probability, and linear algebra.

SKILLS

Python, Optimisation, Statistics, Scenario modelling, Excel, Structured communication

SELECTED COURSES

Operations research, Machine learning, Corporate finance, Technology management, Decision analysis

LANGUAGES

Danish (native), English (fluent), Swedish (basic)

PERSONA / FIT NOTES (for testing dataset)

Primary mix: Applied Technical Specialist + Tech Strategist. Dataset tag: messy realistic. Preferred practice area: Data & AI and Technology Strategy & Advisory.
