PROFILE

CBS master's student with a strong interest in strategy, analytics, and AI-enabled business development. Particularly motivated by helping organisations identify where data and technology can create practical competitive advantage.

EDUCATION

MSc in Business Administration and Data Science - Copenhagen Business School

2024-2026 | Current GPA: 10.8 / 12

BSc in Business Administration and Service Management - CBS

2021-2024 | GPA: 9.6 / 12

PROFESSIONAL EXPERIENCE

Student Associate, Data & AI - Accenture Song / internship project

Jan 2025 - Jun 2025

- Mapped client processes and identified small generative AI use cases with clear business value.
- Prepared hypotheses, workshop slides, and simple financial estimates for proposed pilots.
- Helped communicate technical possibilities in a way business stakeholders could act on.

Student Analyst - Topdanmark

2023 - 2024

- Built management dashboards and translated findings into concise recommendations.
- Worked closely with colleagues from both business and IT.

SKILLS

Power BI, SQL, Excel, GenAI applications, Business case development, Client communication

SELECTED COURSES

Machine learning for business, Corporate strategy, Business experimentation, Data visualisation, Information systems

LANGUAGES

Danish (native), English (fluent), French (basic)

PERSONA / FIT NOTES (for testing dataset)
