

Nanna Christoffersen

MSc Supply Chain Management | University of Southern Denmark (SDU)

Toldbodgade 22, 2. th., 5000 Odense C

nanna.christoffersen@live.dk · +45 52 33 74 90 · linkedin.com/in/nanna-christoffersen

Profile

Operations-focused graduate with expertise in supply chain design, process optimisation, and sustainability integration. Experienced in project management, data analysis, and multi-stakeholder coordination through academic and industry placements. Strong communicator with a track record of turning analytical findings into clear operational recommendations. Seeks to apply supply chain expertise within Accenture's Supply Chain & Operations or Consumer Goods & Services practice.

Education

MSc Supply Chain Management

University of Southern Denmark (SDU) · 2024 – 2026 (expected August 2026)

Specialisation in sustainable supply chains and digital logistics. Thesis: 'Circular Economy Implementation in Danish FMCG Supply Chains: Barriers and Enablers'. GPA: 10.6 (12-scale). Recipient of the SDU Faculty Award for Academic Excellence 2025.

BSc International Business

University of Southern Denmark (SDU) · 2021 – 2024

Double major in Operations Management and Strategy. GPA: 10.2. Exchange semester at Aalto University, Helsinki (Autumn 2023), studying Global Value Chains and Sustainable Business.

Professional Experience

Operations & Supply Chain Intern | Arla Foods – Global Supply Chain

Feb 2025 – Jul 2025 · Viby J, Denmark

- Embedded in the Global Supply Chain Excellence team, contributing to an end-to-end network design review covering 14 production facilities across eight European countries.
- Mapped current-state logistics flows using BPMN and developed a gap analysis identifying DKK 18 million in annual cost savings through consolidation of two distribution centres.
- Co-ordinated stakeholder interviews with factory directors, logistics managers, and commercial planners across Denmark, Sweden, Germany, and the UK.
- Presented findings and recommendations to the Senior Vice President of Supply Chain at a structured review session.

Project Coordinator | Odense Robotics – Cluster Secretariat

Jun 2023 – Jan 2024 · Odense, Denmark

- Supported coordination of an EU Horizon project examining robotic automation in Danish logistics and manufacturing SMEs.
- Prepared progress reports for the European Commission and managed communications with consortium partners in Germany, Netherlands, and Denmark.
- Organised two multi-stakeholder workshops (80+ participants each) with industry, academia, and public authorities.

Student Analyst | PwC Denmark – Deals Advisory

Jun 2022 – Aug 2022 · Copenhagen, Denmark

- Supported due diligence processes for two M&A transactions in food & beverage and industrial sectors.
- Collected and structured market data from public and proprietary sources into presentation-ready formats.
