Profile

Analytically driven finance graduate with a strong quantitative background and proven ability to communicate complex insights to non-specialist audiences. Industry interest in Financial Services and Health & Public Services consulting. Experienced in financial modelling, investment analysis, and client-facing presentations through internships in investment banking and public health economics.

Education

MSc Finance

Aarhus University – Aarhus BSS · 2024 – 2026 (expected August 2026)

Specialisation in corporate finance and valuation. Thesis: 'Capital Structure Decisions in the Nordics: The Role of ESG Ratings'. GPA: 11.2 (12-scale). Dean's List 2025.

BSc Economics & Business Administration

Aarhus University – Aarhus BSS · 2021 – 2024

Major in Finance and Accounting. GPA: 10.8. Exchange semester at NHH Norwegian School of Economics, Bergen (Spring 2023), studying International Finance and Macroeconomics.

Professional Experience

Investment Banking Analyst Intern | Nordea Markets – Equity Capital Markets

Feb 2025 – Jul 2025 · Copenhagen, Denmark

- Participated in two live ECM transactions (IPO preparation and rights issue) with a combined deal value of DKK 3.4 billion, contributing to due diligence, prospectus drafting, and investor materials.
- Built detailed discounted cash flow and comparable company analysis models for Danish mid-cap clients in healthcare and renewable energy sectors.
- Drafted and quality-assured sections of equity research reports reviewed by senior analysts prior to publication.
- Prepared weekly market commentary and deal flow summaries distributed to the Nordic ECM leadership team.

Research Assistant – Health Economics | Aarhus University Hospital / iHEA

Sep 2023 – Jan 2025 · Aarhus, Denmark

- Assisted in developing cost-effectiveness models for two regional health intervention studies funded by the Danish Health Authority.
- Conducted literature reviews, cleaned large administrative datasets (Stata/R), and co-authored a conference paper presented at the iHEA Congress in Cape Town, 2024.
- Supported communication of research findings to policymakers through briefing notes and visualisation.

Finance & Operations Student Worker | Vestas Wind Systems A/S

Jun 2022 – Aug 2022 · Aarhus, Denmark

- Supported the Group Finance team in preparing monthly management accounts and variance analysis.
- Automated a recurring reporting process in Excel/VBA, saving approximately six hours of manual work per month.
