Application for Management Consulting Analyst - Graduate Position

Dear Recruiting Team,

I am pleased to apply for the Management Consulting Analyst - Graduate Position at Accenture Strategy & Consulting. With a degree in Business & Management with Marketing from Université Catholique de Louvain, strong multilingual capabilities, and experience in operations management, forecasting, and process implementation, I am highly motivated by the opportunity to contribute to client-facing transformation projects where business insight and execution capability must go hand in hand.

In my previous role as Assistant Operations Manager, I worked on developing business processes and procedures, reducing operational costs, coordinating staff, producing forecasts, maintaining documentation, and supporting management decision-making. This experience gave me a practical understanding of how businesses improve performance through better processes, clearer coordination, and structured execution. It also strengthened my communication skills and my ability to work responsibly across stakeholders and day-to-day operational demands.

I am particularly drawn to Accenture because the analyst role combines analysis, communication, and implementation in a way that creates tangible impact. Based on my experience and interests, I would be especially keen to be considered for Supply Chain & Operations or Consumer Goods & Services. I am interested in helping organizations improve efficiency, execute change successfully, and use technology and process design to strengthen business performance. I also believe my international profile and language skills would allow me to contribute effectively in cross-functional and cross-cultural teams.

I would bring a proactive mindset, strong teamwork skills, and a genuine interest in technology-enabled business transformation. I am eager to learn from experienced colleagues, contribute with structure and energy, and build a career in consulting in an environment known for both high expectations and strong development opportunities.

Thank you for considering my application. I would welcome the opportunity to elaborate on my motivation and fit for Accenture.

Sincerely,
Dimitri Boudon
