

THEA SKOVBJERG FROST

ITKO STUDENT | DIGITAL TRANSFORMATION & IT SOLUTIONS

PROFILE

Master's student in IT, Communication and Organization (ITKO) with experience in digital transformation, workflow integration, and process automation from JYSK's Digital Marketing Operations department. I translate business needs into scalable IT solutions and work hands-on with testing and implementation. I bring strong stakeholder collaboration skills and an international perspective, and I am motivated to apply my technical and business understanding in roles within consulting at Netcompany.

*A recommendation is attached from the CEO and founder of KULU.

Mentor & Buddy for International Students

AUG 2022 - JUN 2023

Aarhus University | Studenterhus Aarhus

Netcompany

To whom it may concern,

It is my pleasure to recommend Thea Skovbjerg Frost, who has been employed as a Student Help in the Email Marketing team at JYSK for the past two years.

During her time with us, she has consistently demonstrated exceptional professionalism, strong technical capabilities, and a remarkable ability to translate complex solutions into tangible business context.

From the outset, Thea distinguished herself through her strong interest in technology and digital transformation. She possesses a solid understanding of IT systems, system architecture, and implementation processes.

Notably, she developed and programmed a technical use case that was subsequently implemented across 29 JYSK markets following thorough testing and refinement. This achievement clearly reflects her technical proficiency. She also played an active role in the rollout of a new marketing automation platform within our team - an implementation that also spanned all JYSK markets.

Her contributions have been particularly valuable in the areas of system implementation and process optimization. Her involvement covered both the technical set-up and the practical application of the system, and she provided essential support in communication and internal knowledge sharing throughout the process. Her structured approach, attention to detail, and solution-oriented mindset were key to the success of this project.

In her time with us, Thea has also handled several reporting tasks, following up on KPIs and performance metrics which supported the decision-making and performance evaluation within the team.

Working within a large international organization, she has collaborated effectively with stakeholders across multiple markets. She consistently demonstrates strong communication and collaboration skills.

On a personal level, Thea is responsible, self-driven, and highly reliable. She approaches her work with structure and professionalism, and she is always willing to take initiative. Her positive attitude and ability to work constructively with her colleagues have contributed greatly to our team environment.

In summary, Thea has been an outstanding asset to the Email Marketing team at JYSK. I am confident that she will bring the same level of dedication, competence, and professionalism to any future role she pursues. I give her my highest recommendation.

Should you require any further information, please feel free to contact me.

Sincerely,

Martin Ry Mathiasen
Team Leader, Email Marketing

Anbefaling for Thea Skovbjerg Frost

Kvindernes U-landsudvalg (KULU) kan varmt anbefale Thea Skovbjerg Frost.

Hun er Ung ambassadør for Beijing+30 i KULU-FN-forbundets projekt "Unge-initiativ: Ambassadører for Beijing+30"

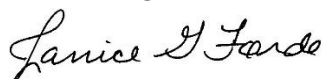

Som ung ambassadør har hun deltaget i og repræsenteret KULU i den danske delegation til FNs Kvindekommissons samling (UN Commission on the Status of Women, 69th session) i New York City i 2025, hvor hun bidrog til at sætte fokus på centrale dagsordener for projektet og KULU.

Hun har arbejdet projektorienteret med planlægning, koordinering og formidling, herunder forberedelse af indhold, deltagelse i relevante sessions samt skriftlig og digital/SoMe opsamling, rapportering og videreformidling af erfaringer og oplevelser efterfølgende.

Hun indhentede projektlederrolle erfaringer i forbindelse med planlægning og eksekvering af unge ambassadørernes succesfulde og velbesøgt "Feministiske banko"-event i november 2025, som omfattede projektstyring fra idé til afvikling, koordinering af venue, dialog med samarbejdspartnere og sponsorer, praktisk planlægning, implementering og opfølgning.

Som ung ambassadør har hun været med til at hverve nye ambassadører til projektet, bidraget til at styrke ambassadørernes fællesskab og øge engagementet omkring KULUs arbejde for at sikre og styrke kvinders og pigers rettigheder og ligestilling i udvikling og sætte det på dagsordener i Danmark, internationalt, regionalt og lokalt.

Med venlig hilsen,

Janice G Førde
KULU forkvinde og senior konsulent
