Accenture Strategy & Consulting

Re: Application – Management Consulting Analyst (Graduate, September 2026)

Copenhagen, 21 May 2026

Dear Hiring Manager,

I am writing to apply for the Management Consulting Analyst position at Accenture Strategy & Consulting, commencing September 2026. With a combined background in engineering and business information systems, and hands-on experience gained through internships at Maersk and Implement Consulting Group, I am confident that I can make an immediate and meaningful contribution to your consulting practice.

My academic training has given me a rigorous foundation in both quantitative analysis and strategic thinking. At CBS, I am completing a master's thesis on ERP implementation as an organisational change challenge – a topic that sits squarely at the intersection of technology and business transformation that Accenture serves. During my time at DTU, I developed strong analytical skills through industrial engineering coursework and honed my ability to work effectively across disciplines.

The internship at Maersk Group Strategy was particularly formative. I was embedded in a small team responsible for evaluating routing inefficiencies across the Asia-Europe container network, and I quickly learned that analytical rigour means little without the ability to communicate findings clearly to senior decision-makers. I built financial modelling tools that cut scenario analysis time by more than 80%, facilitated multi-stakeholder workshops, and contributed to reports presented directly to the Chief Strategy Officer. These experiences gave me an appreciation of the pace, ambiguity, and precision required in top-tier consulting environments.

I am particularly drawn to Accenture's Supply Chain & Operations and Financial Services practices. Both industries are undergoing rapid technology-driven disruption, and I believe my combination of engineering fundamentals, business acumen, and real-world consulting exposure positions me to add value for clients navigating these transitions.

I would welcome the opportunity to discuss my application further. I am fully available to attend the bootcamp week in Copenhagen in November 2025, and I look forward to demonstrating my problem-solving and communication skills in person.

Yours sincerely,

Mikkel Andersen
