

Mikkel Andersen

MSc Business Administration & Information Systems | CBS Copenhagen

Vesterbrogade 44, 3. tv., 1620 Copenhagen V

mikkel.andersen@gmail.com · +45 28 43 61 17 · linkedin.com/in/mikkel-andersen

Profile

Commercially oriented graduate with a combined background in engineering and business administration. Experienced in data-driven decision-making, stakeholder management, and cross-functional collaboration. Passionate about applying technology to solve complex business challenges, with particular interest in Financial Services and Supply Chain & Operations consulting at Accenture.

Education

MSc Business Administration & Information Systems

Copenhagen Business School (CBS) · 2024 – 2026 (expected June 2026)

Specialisation in digital transformation and enterprise systems. Thesis: 'ERP Implementation as a Change Management Challenge – Lessons from the Danish Manufacturing Sector'. GPA: 10.4 (12-scale).

BSc in General Engineering (Generalingeniør)

Technical University of Denmark (DTU) · 2020 – 2023

Majored in Industrial Engineering and Management. Graduated with distinction (GPA: 10.7). Elected student representative for the International Study Committee.

Professional Experience

Strategy & Operations Intern | Maersk – Group Strategy

Jan 2025 – Jun 2025 Copenhagen, Denmark

- Supported a cross-divisional project mapping inefficiencies in the Asia-Europe container routing model, producing a 40-page analytical report presented to the Chief Strategy Officer.
- Built a financial modelling tool (Excel/Python) that reduced manual scenario analysis from two days to under four hours.
- Facilitated three workshops with senior stakeholders across procurement, logistics, and finance to align on KPI definitions for a new performance dashboard.
- Drafted executive briefings and slide decks for internal governance meetings and quarterly business reviews.

Teaching Assistant – Operations Management | Copenhagen Business School

Sep 2024 – Dec 2024 Frederiksberg, Denmark

- Led weekly tutorial sessions for two classes of 30 students in quantitative operations management.
- Developed supplementary case materials applying lean methodology to Danish retail logistics.

Junior Analyst | Implement Consulting Group

Jun 2023 – Aug 2023 Copenhagen, Denmark

- Contributed to a public-sector digital transformation project for a regional municipality.
- Conducted 15 structured stakeholder interviews and synthesised insights into a gap analysis document.
- Supported development of a change readiness assessment framework subsequently adopted by the client.
