Dear Accenture Strategy & Consulting Hiring Team,

I am writing to apply for the Management Consulting Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Business Administration and Information Systems at CBS in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Management Consulting Analyst role sits.

I am a CBS graduate combining a strong analytical foundation in business with a passion for digital transformation in financial services. Through my master's programme in Business Administration and Information Systems, I have built expertise in enterprise architecture, process optimization, and data-driven decision making. My internship at Danske Bank's Group Strategy team gave me exposure to large-scale strategic initiatives and stakeholder management.

My most recent role as Group Strategy Intern at Danske Bank has shaped my interest in this work in concrete ways. Supported the development of the bank's three-year digital strategy roadmap. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What attracts me to Accenture's consulting practice is the combination of strategic and implementation work for some of the largest organisations in the Nordics. The opportunity to apply hands-on problem solving in real client environments, while still developing depth in the areas I care most about, is rare — and exactly what I am looking for as I move from study into a full-time role.

I am open to working across Accenture Consulting's Industry practices (Financial Services, Resources, Life Sciences, Consumer Goods & Services, Health & Public Services) and Functional practices (Talent & Organization, Supply Chain & Operations). That said, my background and interests align particularly with the **Financial Services** practice, and I would welcome the opportunity to be considered for it as a primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Management Consulting Analyst team.

Kind regards,

Mette Lindberg
