PROFILE

Master's student at SDU specialising in Strategy and Organisation, with a particular interest in how organisations transform their workforce through technology. My academic focus has centred on change management, organisational design, and the human side of digital transformation. Through my work at the Region of Southern Denmark, I have seen first-hand how change initiatives succeed or fail based on people, not just systems.

EDUCATION

MSc in Strategy and Organisation
SDU

2024-2026
Current GPA: 9.6
