EDUCATION

**MSc in Sustainable Energy
Engineering**

AAU · 2024-2026
Current GPA: 10.3

**BSc in Sustainable Energy
Engineering**

AAU · 2020-2023
GPA: 9.7

Exchange: NTNU Trondheim
Autumn 2024

LANGUAGES

- Danish (native)
- English (fluent)
- Norwegian (working)

TECHNICAL SKILLS

Python, MATLAB, DigSILENT
PowerFactory, PSS/E, GIS, SQL,
Excel

PROFESSIONAL SKILLS

- Technical analysis
- Project-based learning (PBL)
- Cross-disciplinary collaboration
- Scientific writing

Camilla Bøgelund

Graduate Applicant — MSc in Sustainable Energy Engineering

PROFILE

Aalborg-based engineering master's student specialising in sustainable energy and the green transition. I have worked across academic, industrial and policy contexts, including a research stay at Ørsted's offshore wind division. I bring an analytical mindset, project-based teamwork from AAU's PBL model, and a genuine interest in how technology and strategy combine to solve the most pressing climate challenges.

WORK EXPERIENCE

Ørsted · Skærbæk

Engineering Intern, Offshore Wind · Full-time internship · Feb 2025 – Aug 2025

- Supported wind farm performance modelling and CapEx benchmarking
- Built a Python tool for automated monthly performance reporting
- Presented optimisation findings to the engineering leadership team

AAU Energy · Aalborg

Student Researcher · Part-time · Sep 2023 – Jan 2025

- Performed power-system simulations for a Horizon Europe project
- Co-authored a conference paper presented at IEEE ISGT Europe

Bauhaus · Aalborg

Sales Associate · Part-time · Aug 2018 – Aug 2020

VOLUNTEER WORK

Member, IDA Energi Studerende · Sep 2021 – Present

Active member of the engineering students' energy network.

MASTER'S THESIS

Hybrid Offshore Wind-to-Hydrogen Systems: A Techno-Economic Optimisation
