Accenture Strategy & Consulting
Copenhagen, Denmark

Re: Application for Management Consulting Analyst graduate position

Dear Hiring Team,

I am writing to apply for the Management Consulting Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Applied Economics and Finance at CBS in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Management Consulting Analyst role sits.

I am a CBS economics and finance master's student with strong quantitative skills and a track record across investment banking and corporate finance internships. I am drawn to management consulting because it offers exposure to a broader spectrum of strategic and operational challenges than I would see in pure finance, while still leveraging my analytical foundation.

My most recent role as Summer Analyst at SEB Investment Banking has shaped my interest in this work in concrete ways. Supported live M&A processes in the Nordic mid-market. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What attracts me to Accenture's consulting practice is the combination of strategic and implementation work for some of the largest organisations in the Nordics. The opportunity to apply hands-on problem solving in real client environments, while still developing depth in the areas I care most about, is rare — and exactly what I am looking for as I move from study into a full-time role.

I am open to working across Accenture Consulting's Industry practices (Financial Services, Resources, Life Sciences, Consumer Goods & Services, Health & Public Services) and Functional practices (Talent & Organization, Supply Chain & Operations). That said, my background and interests align particularly with the **Financial Services** practice, and I would welcome the opportunity to be considered for it as a primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Management Consulting Analyst team.

Yours sincerely,

Karoline Dahl
