

Ida Toft-Nielsen

MSc in Digital Innovation and Management

PROFILE

ITU graduate combining a strong technology foundation with a focus on how organisations design, scale and govern digital operations. My internship at Maersk and student role at Trustpilot have shown me how data and platforms reshape supply chains and customer operations. I want to apply this perspective in management consulting, where the gap between digital ambition and operational reality is often where the real value lies.

EXPERIENCE

Digital Operations Intern

Maersk, Copenhagen · Full-time internship · Feb 2025 – Aug 2025

- Supported the rollout of a new container booking platform across 4 regions
- Built process maps and operational dashboards in Power BI
- Synthesised user feedback from 60+ frontline interviews

Student Assistant, Customer Operations

Trustpilot, Copenhagen · Part-time · Sep 2023 – Jan 2025

- Analysed support ticket data to identify automation opportunities
- Worked with engineering team on chatbot scoping

Sales Associate

H&M, Copenhagen · Part-time · Sep 2018 – Aug 2020

VOLUNTEER

Mentor, ITU Mentor Programme · Sep 2024 – Present

Mentor first-year students through their academic transition.

MASTER'S THESIS

Conversational AI in Customer Operations: A Service-Design Perspective
