- Cross-functional teamwork.
- GPA of 9.2 from AU.
- International outlook from exchange and work.

## APPLYING TO

**Accenture**  
Management Consulting  
Analyst  
Copenhagen, Denmark

# LETTER OF MOTIVATION

Emma Lykke · Management Consulting Analyst graduate position

Dear Hiring Team at Accenture,

I am writing to apply for the Management Consulting Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Information Technology, Communication and Organisation (ITKO) at AU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Management Consulting Analyst role sits.

I am a iTKO master's student at Aarhus University combining business communication, system development and digital transformation. My role at Arla Foods has given me hands-on experience translating business needs into IT solutions across markets, and I have built a strong appreciation for the change-management side of consulting. I am especially interested in consumer goods, where digitalisation directly meets customer experience.

My most recent role as Student Assistant, Digital Marketing Operations at Arla Foods has shaped my interest in this work in concrete ways. Supported the rollout of a new CDP across 5 European markets. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What attracts me to Accenture's consulting practice is the combination of strategic and implementation work for some of the largest organisations in the Nordics. The opportunity to apply hands-on problem solving in real client environments, while still developing depth in the areas I care most about, is rare — and exactly what I am looking for as I move from study into a full-time role.

I am open to working across Accenture Consulting's Industry practices (Financial Services, Resources, Life Sciences, Consumer Goods & Services, Health & Public Services) and Functional practices (Talent & Organization, Supply Chain & Operations). That said, my background and interests align particularly with the **Consumer Goods & Services** practice, and I would welcome the opportunity to be considered for it as a primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Management Consulting Analyst team.

Warm regards,

*Emma Lykke*
