7 October 2025

Dear Accenture Hiring Team,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Computer Science (Machine Learning track) at KU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a computer science master's student at KU specialising in machine learning. I bring a strong technical foundation, professional experience at Deepl and the Alexandra Institute, and a curiosity about the strategic implications of AI. I am applying to Strategy because I want to be in the rooms where AI is shaping companies' futures, not only in the rooms where the models are built.

My most recent role as Student Researcher, AI for Business at Alexandra Institute has shaped my interest in this work in concrete ways. Worked on applied ML projects with Danish SMEs. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **Data & AI** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Warm regards,

Maja Lystrup
