7 October 2025

Dear Accenture Hiring Team,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Applied Mathematical Engineering – Statistics and Data Science at AAU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a AAU master's student in mathematical engineering with a strong statistics and data science focus. My role at Bankdata and my project work with Aalborg Forsyning have given me hands-on experience taking data and AI from idea to implementation in regulated and operational contexts. I am drawn to Accenture Strategy's Data & AI practice for the variety of clients and problems.

My most recent role as Data Science Intern at Bankdata has shaped my interest in this work in concrete ways. Built and validated a credit-risk model for SME exposures. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **Data & AI** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Warm regards,

Naja Kallesø
