Dear Accenture Strategy & Consulting Hiring Team,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in IT and Cognition at KU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a kU master's student combining computer science with cognitive science. My professional experience at Schibsted and Velux has covered everything from frontend development to platform strategy. I want to apply this combination of technical depth and human-centred thinking to Accenture's Technology Strategy & Advisory practice.

My most recent role as Product Strategy Intern at Schibsted has shaped my interest in this work in concrete ways. Researched the AI landscape for media and classifieds platforms. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **Technology Strategy & Advisory** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Kind regards,

Rasmus Berg
