7 October 2025

Dear Accenture Hiring Team,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Accounting and Finance at SDU in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a SDU accounting and finance master's student. My professional experience at PwC and Velux has given me both audit-side and corporate-side exposure to the modern finance function. I am applying to Accenture Strategy because I want to combine my finance toolkit with strategic and operational consulting work, building a broader perspective than I would in pure assurance.

My most recent role as Audit Intern at PwC has shaped my interest in this work in concrete ways. Worked on audit engagements for two listed industrial clients. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **CFO & Enterprise Value** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Warm regards,

Mads Brodersen
