Accenture Strategy & Consulting
Copenhagen, Denmark

Re: Application for Strategy Analyst graduate position

Dear Hiring Team,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Management & Technology at TU München in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am a TUM Management & Technology graduate with a foundation that combines mechanical engineering basics with management. My internships at McKinsey Munich and Siemens have shown me how technology agendas are set and executed in large industrial firms. I am drawn to Accenture's Technology Strategy & Advisory practice in the Nordics — and I plan to relocate to Copenhagen this summer.

My most recent role as Summer Business Analyst (Practitioner Programme) at McKinsey & Company has shaped my interest in this work in concrete ways. Supported a digital transformation engagement at a German industrial OEM. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **Technology Strategy & Advisory** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Yours sincerely,

Lukas Müller
