7 October 2025

Dear Accenture Hiring Team,

I am writing to apply for the Strategy Analyst graduate position at Accenture Strategy & Consulting, with a planned start in September 2026. I will complete my MSc in Strategic Management at HEC Paris in summer 2026 and am excited by the opportunity to begin my career at the intersection of business and technology — exactly where the Strategy Analyst role sits.

I am an HEC Paris graduate combining a Sciences Po foundation in economics and society with a strategic-management specialism. My internships at Roland Berger Paris and at the Group Strategy office of LVMH have shaped my interest in CFO-level enterprise value work. My exchange semester at CBS introduced me to the Nordic business environment, which is a strong draw as I begin my career. I plan to relocate to Copenhagen this summer.

My most recent role as Strategy Consulting Intern at Roland Berger has shaped my interest in this work in concrete ways. Supported a value-creation engagement for a French industrial group. The exposure to real business problems, in a structured environment, showed me how analytical work translates into tangible outcomes — and reinforced my motivation to continue in consulting.

What draws me to Accenture Strategy is the chance to work where corporate strategy and technology meet — across industries, with senior stakeholders, and with the analytical rigour I have built throughout my degree. The Nordic Strategy community's emphasis on diverse perspectives and continuous development matches the kind of environment in which I do my best work.

At Accenture Strategy, I would welcome being considered across Technology Strategy & Advisory, CFO & Enterprise Value, Industry Strategy, and Data & AI. Given my profile and interests, I am especially drawn to the **CFO & Enterprise Value** practice and would value being considered for it as my primary preference.

I am able to take part in the bootcamp in Copenhagen, and I will have completed my master's degree before September 2026. Thank you very much for considering my application — I would be delighted to discuss in more detail how I could contribute to Accenture's Strategy Analyst team.

Warm regards,

Camille Dubois
